

ONLINE SAFETY SESSION

- Worry about your child using the internet?
- Need practical tips to help keep your child safe?

Being online is a part of everyday life and is a valuable and important tool for children to use; both for learning and communication. Children have access to computers through schools, libraries and at home - so it's important that parents and carers understand the risks of being online, and how to protect the child against them.

We're holding FREE Online Safety Training for parents, grandparents, and carers

24th April at 15:30

What we'll cover: An introduction to the dangers of being online - with practical advice on how to keep your child safe, and where to go for further support.

All sessions are free to attend and last for one hour.

For more information and to book on the sessions please contact:
